Introduction

A Portfolio Website is a personal website used to showcase an individual's skills, education, projects, achievements, and contact information. This project uses HTML and CSS to create a clean and attractive portfolio layout.

CSS Grid is used to organize different sections of the website into a structured and responsive layout. CSS animations and transitions are added to make the website more interactive and visually appealing. The website is designed to work smoothly on different screen sizes, including desktops, tablets, and mobile devices.

The main purpose of this project is to create a professional and user-friendly portfolio while demonstrating the practical use of CSS Grid, animations, transitions, and responsive web design.

INPUT CODE

```
<html>
<head>
   <title>My Portfolio</title>

   <style>
      body {
         font-family: Arial, sans-serif;
         background-color: #f4f4f4;
         color: #333;
      }
      nav {
         background-color: #222;
         padding: 15px;
         text-align: center;
      }
      nav a {
         color: white;
         text-decoration: none;
         margin: 20px;
         transition: color 0.3s;
      }
      nav a:hover {
         color: #00bcd4;
      }
      .head {
         text-align: center;
         padding: 50px;
         background-color: #b561a3;
         color: white;
         animation: fadeIn 2s;
```

```
}
.head h1 {
    font-size: 40px;
}
.head p {
    margin-top: 10px;
}
.p1 {
    padding: 40px;
    display: grid;
    grid-template-columns: repeat(3, 1fr);
    gap: 20px;
}
.card {
    background-color: white;
    padding: 25px;
    text-align: center;
    border-radius: 10px;
    box-shadow: 0 2px 8px gray;
    transition: transform 0.3s, box-shadow 0.3s;
}
.card:hover {
    transform: translateY(-10px);
    box-shadow: 0 5px 15px gray;
}
.card h2 {
    color: #b561a3;
    margin-bottom: 10px;
}
.skl {
    background-color: rgb(254, 254, 254);
    padding: 40px;
    text-align: center;
```

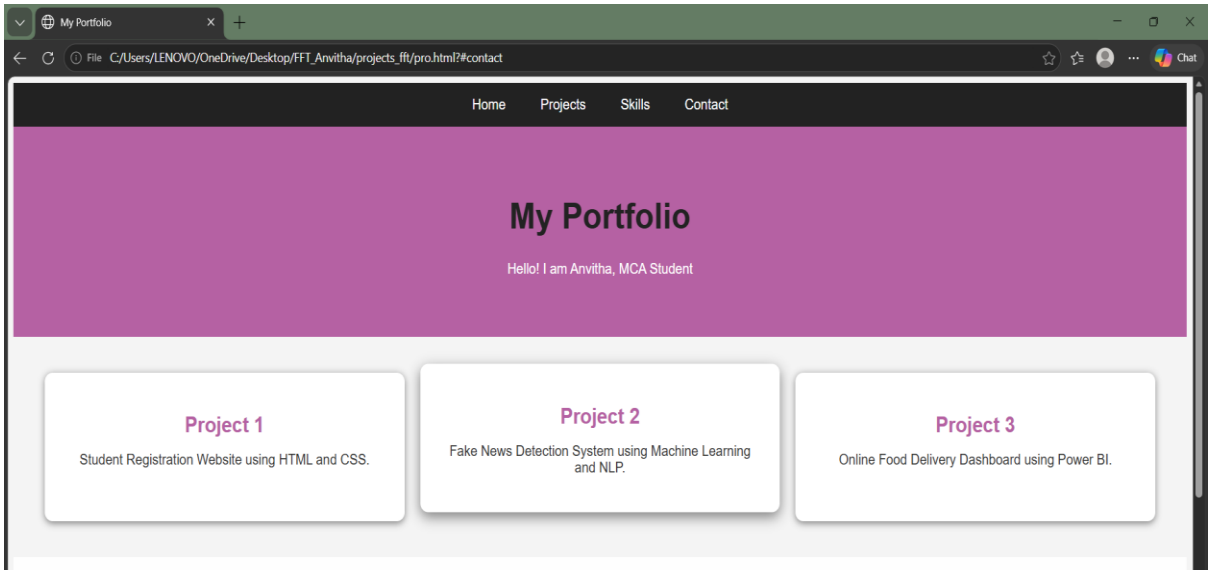

```
}
.skl h2 {
    margin-bottom: 20px;
}
.skill {
    display: inline-block;
    background-color: #b561a3;
    color: white;
    padding: 25px;
    margin: 5px;
    border-radius: 20px;
    transition: transform 0.3s;
}
.skill:hover {
    transform: scale(1.2);
}
.c1{
    padding: 40px;
    text-align: center;
}
input {
    width: 80%;
    padding: 10px;
    margin: 10px;
    border: 1px solid #ccc;
    border-radius: 5px;
}
button {
    padding: 10px 25px;
    background-color: #b561a3;
    color: white;
    border: none;
    border-radius: 5px;
```

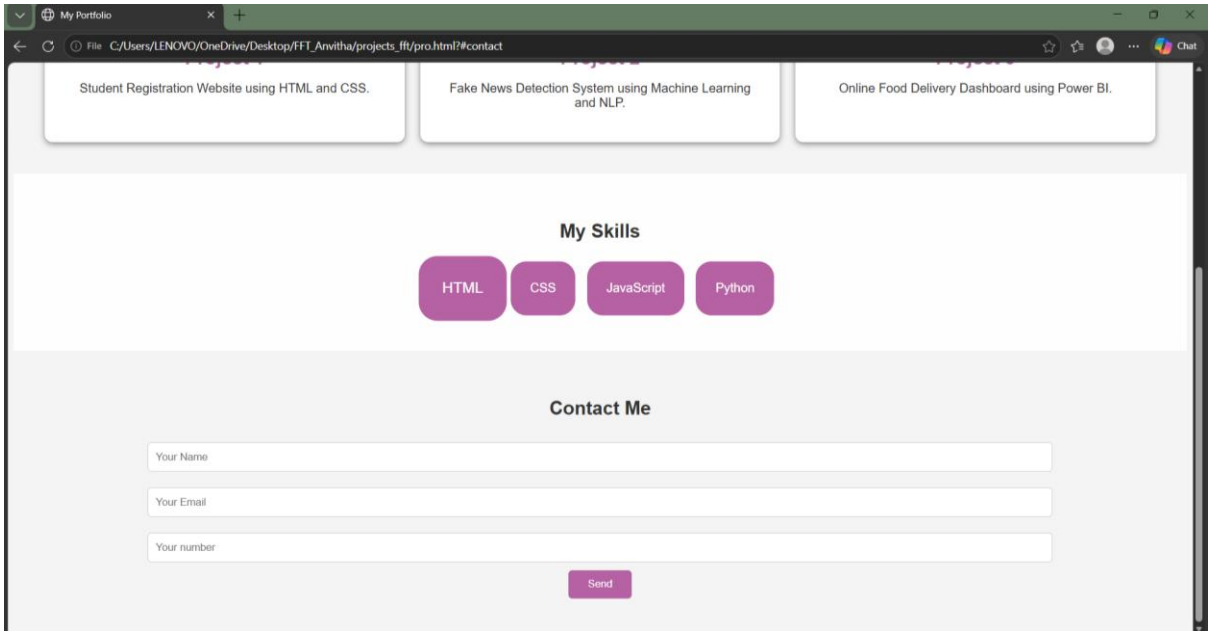

```
            cursor: pointer;
            transition: background-color 0.3s;
        }
        button:hover {
            background-color: #896080;
        }
        @keyframes fadeIn {
            from {
                opacity: 0;
                transform: translateY(-30px);
            }
            to {
                opacity: 1;
                transform: translateY(0);
            }
        }
        @media (max-width: 700px) {
            .p1 {
                grid-template-columns: 1fr;

Conclusion

In conclusion, the Portfolio Website successfully presents personal information, skills, projects, and achievements in a well-organized and attractive manner. CSS Grid helps create a structured and responsive layout, while CSS animations and transitions improve the visual appearance and user interaction. This project provides practical knowledge of modern web design techniques and demonstrates how HTML and CSS can be used to create a professional and responsive portfolio website.
